

Haamavaran Energy Pars

Haamavaran Energy Pars

August 2018

Introduction

The oil and gas industry is constantly evolving to meet new economic and environmental challenges. Our people ensure they utilise engineering methodologies that take advantage of the latest technology to profitably produce, transport and distribute these products

At HEP, we offer a unique set of pipeline services unmatched anywhere in the oil & gas industry. We can provide design, engineering management, pipeline construction, integrity service, subcontractor management, and HEP resource management.

We are able to self-perform most required activities, but also have the capability and experience to outsource many unique or specialized activities to our network of qualified subcontractors. It is often the smartest and most cost-effective solution for managing maintenance and small project work across a broad geographical area.

Vision

-  To become the global oil and gas specialist EPC contractor company.
-  To be unique in the refinery, pipeline and special facilities by competitive offering and high quality services to the international customers.
-  To be achieved improving revenue in 2020 through increasing domestic and international market share in the fields of oil, gas and petrochemical.

Mission

-  Our success is powered by ideas and ideas come from all kinds of people
-  Focused on Customer satisfaction
-  Application of modern technology to enhance productivity
-  Supervising the observance of safety, health and environment principles in operational regions as well as installations & commissioning
-  Experienced professionals collaborating to provide top quality services and management
-  Promotion of technical know-how and expertise of the personnel involved in HEP
-  Designing, planning, implementing, monitoring and construction of oil & gas projects
-  Continuously supervising the planning and implementation of operational projects

Values

Our values are the uncompromising foundations upon which we build our mission.

Integrity: the courage to maintain the right from the wrong without compromise.

Reliability: the ability to deliver on what we promise, without exception.

Accountability: the strength to be responsible for our own actions and decisions

Our Activities

ENGINEERING

-  Design Oil & Gas Pipeline
-  Design Gas Compressor Stations
-  Design Oil Pump Stations
-  Design Gas Regulating Stations
-  Project time schedule
-  Construction Technical Office
-  Workshop Engineering

PROCUREMENT

-  Procurement Engineering
-  Find the best companies for procurement as per Client Vendor List
-  Technical Bid Evaluation
-  Commercial Bid Evaluation

CONSTRUCTION

-  Mobilization
-  Construction Oil & Gas Pipeline
-  Construction Gas Compressor Stations
-  Construction Oil Pump Stations
-  Construction Regulating Stations
-  Demobilization

MANAGEMENT CONTRACT

-  Value Engineering
-  Project Management
-  Risk Management
-  Crisis Management
-  Sub-Contractor selection
